Tuition billing is processed every two weeks on Fridays. Automatic payments (Tuition Express, Carle Payroll Deduction) are deducted at this time.

To ensure a safe environment for the children and staff, child care staffing is based on the number of children reserving care each semester. As space allows, we will be happy to accommodate unexpected needs for child care throughout the semester. Please communicate directly with the school office to determine whether ratios allow for your child to be safely included in child care on any given day. The best way to ensure that your child will be guaranteed a spot in child care is to reserve your child care needs for August - December, 2018 prior to July 27, 2018 and your child care needs for January - June, 2019 prior to December 14, 2018. January - June 2019 child care need requests will be sent home in November to allow ample time for you to determine what your child care needs are for the second semester of the 2018 - 2019 school year.

Reserved care will be billed at the early bird rates listed above. Any care for August - December, 2018 not reserved by July 27, 2018 and care for January - June, 2019 not reserved by December 14, 2018 will be billed at the standard rates. These charges will be included in a subsequent deduction, causing deduction amounts to vary.

Carle employees will receive a 10% discount for each child who attends Carle Auditory Oral School. The sibling discount is available to Carle employees, though it should be noted that the 10% sibling discount is calculated after the employee discount is applied. Automatic payroll deduction is available for Carle employees.

**Sibling Discounts!!!! All families will receive 10% off tuition, before care and after care for an additional children attending the school.**

Child Care Resource Service offers financial support so that families with lower incomes can access high quality programs for their children while they work or attend school. Our school is credentialed with CCRS. Individual families can apply to CCRS to determine whether their income and family size qualifies for CCRS support. During the 2017 - 2018 school year, CCRS reimbursed eligible child care and tuition for full day programming for children who were under 3 as of 9/1/17 at a rate of \$32/day and children who were under 5 as of 9/1/17 at a rate of \$24/day. Also during the 2017 - 2018 school year, CCRS reimbursed eligible child care costs for the program for children who were over age 5 as of 9/1/17 at a rate of \$12/day. Children who are under 5 years of age as of 9/1/17, who meet income guidelines would be eligible for full day coverage. CCRS support is only provided when the child attends the program. So, even though missed days due to vacation or illness are not deducted from monthly tuition charges, they may not be reimbursed by CCRS. As a result it is possible that the family responsibility for tuition may increase in cases of prolonged student absence.
